Dear Steven Cameron

### [Lochluichart Extension II OHL Grid Connection](#)

Thank you for your consultation which we received on 12 August 2021 seeking our comments on for the above proposed development. This letter contains our comments for our historic environment interests. That is world heritage sites, scheduled monuments and their setting, category A-listed buildings and their setting, gardens and designed landscapes, Historic Marine Protected Areas (HMPAs) and battlefields on their respective Inventories.

Your archaeological and conservation advisors will also be able to offer advice for their interests. This may include unscheduled archaeology, category B- and C-listed buildings and conservation areas.

#### **Our Screening opinion**

We understand from the submitted details that the proposed development comprises an overhead line grid connection from the consented Lochluichart Wind Farm to the existing substation at Corriemoillie.

#### **Our advice**

There are no heritage assets within our remit either within, or in the immediate vicinity of, the proposed development. We are therefore content that the proposed works are unlikely to have significant impacts on assets within our statutory remit.

#### **Further information**
